

AVAI UI · FULL SITE SNAPSHOTS

Desktop · 1440 px wide

159 screens captured one after another from the running app with its mock data:
sign-in screens, student onboarding, Principal, Teachers, Exam cell and the AVAI ops console.
Branch `claude/determined-maxwell-efl6lf`, commit `56ba0ca`.
Student-level pages show one sample student per section; every student uses the same layout.
Page 2 lists every screen; click an entry to jump to it.

Hi! Before your first test, tell us who you are.

Every student in Class X does this once. It takes a few minutes and there is nothing to revise, AVAi just needs to know how you learn before it starts reading your papers.

- About 6 minutes
- No marks, no ranking
- Your teacher builds on it

Start your onboarding

Use the student ID and password on the slip your class teacher gave you.

Which Class 11 group are you thinking about?

Maths + Biology

Maths + Computer Science

Biology without Maths

Commerce

Arts / Humanities

Vocational

Diploma / ITI

Not decided yet

Why are you considering this group?

Select up to 2.

I like these subjects

I think I can do well in these subjects

It matches my career interest

My parents suggested it

My friends are choosing it

It keeps many options open

It is the available option

I don't know yet

How sure are you about this choice?

Back

Finish

Which careers or exams have you heard about?

Doctor / Healthcare

Engineering / Technology

CA / Finance

Law

Defence

Teaching

Design

Business

Government jobs

Research

None of these

Is there anything that may affect your future study choice?

College cost

Staying close to home

Moving to another city

Family responsibilities

I have not thought about this yet

SUBJECT REPORT

Unit Test 2

Mathematics

OVERALL

76% [^]+3pt

AGAINST THE CLASS

−6pt class 82%

MARKS LOST

17 of 72

IN THE TOP 2 GAPS

5 marks

Where marks were lost

SUBJECT	CHAPTER	LOST	STATUS	
English	Unseen Passage Inference	3	High High	Open report
Science	Electricity Numericals	2	High Medium	Open report
Social Science	Map Work Location accuracy	2	Low Medium	Open report

Aditi R.'s loss is concentrated in inference in English, Unseen Passage. 3 other subjects show smaller losses that do not yet form a pattern.

Mathematics, one-page report

AVAI BOARDX · ONE-PAGE ASSESSMENT REPORT

14 / 17

Up from your last assessment. Keep going, you're on the right path.

Aditi R. · X-A · Unit Test 2 · Mathematics

1 Where you stand

CHAPTER	YOU SCORED	NOT SCORED	BOARD IMPORTANCE
Quadratic Equations	6 / 7	1	12 / 80
Arithmetic Progressions	3 / 4	1	8 / 80
Trigonometry	2 / 3	1	10 / 80
Coordinate Geometry	3 / 3	0	Not enough evidence

BOARD EXPOSURE

Affected chapters carry 30 of 80 Board marks.

ESTIMATED BOARD-SCORE IMPACT

Not yet calibrated

2 How you are handling questions

Q

Reading & Understanding

No score is invented here, this needs more answer-level data than one assessment provides.

MULTI-STEP APPLICATION

You scored higher on questions asking you to state a rule than on questions asking you to apply it in a new situation.

The clearest pattern here is on multi-step application questions in Quadratic Equations, the same pattern BoardX sees across Class X.

3 Where the marks went

Quadratic Equations

6 / 7

1 of 7 marks not scored, application

The marks lost are on questions that ask you to build the equation from a situation, not to solve one already given.

Arithmetic Progressions

3 / 4

1 of 4 marks not scored, term selection

The formula is being applied correctly; the marks go on identifying which term the question is actually asking about.

Trigonometry

2 / 3

1 of 3 marks not scored, identity choice

The lost marks are on proofs where the first substitution decides whether the rest works out.

Coordinate Geometry | 3 / 3

Full marks here, there isn't a loss to explain, so no pattern is shown for this chapter.

4 What you should do next

START WITH: Quadratic Equations, application

Ex 4.3 Q7, word problem leading to a quadratic

Ex 4.4 Q2, two-step "nature of roots" application

Ex 4.4 Q5, forming the equation from a story sum

THEN: Arithmetic Progressions, term selection

Ex 5.2 Q11, find n given the term value

Ex 5.3 Q3, sum-to-n word problems

Ex 5.3 Q10, AP formed from a real-world sequence

Practice rule

For every wrong answer, mark the error: reading the condition, choosing the method, setting up the steps, calculation, or the final answer.

See where the marks went, the pattern behind them, the Board importance, and the exact practice to do next.

Evidence note: this report covers Unit Test 2 only; the trend compares it with Unit Test 1. It does not predict your final Board score.

2 How you are handling questions

Q Reading & Understanding

No score is invented here, this needs more answer-level data than one assessment provides.

MULTI-STEP APPLICATION

You scored higher on questions asking you to state a rule than on questions asking you to apply it in a new situation.

The clearest pattern here is on multi-step application questions in Quadratic Equations, the same pattern BoardX sees across Class X.

3 Where the marks went

Quadratic Equations

5 / 7

2 of 7 marks not scored, application

The marks lost are on questions that ask you to build the equation from a situation, not to solve one already given.

Trigonometry

2 / 3

1 of 3 marks not scored, identity choice

The lost marks are on proofs where the first substitution decides whether the rest works out.

Arithmetic Progressions | 4 / 4

Full marks here, there isn't a loss to explain, so no pattern is shown for this chapter.

4 What you should do next

START WITH: Quadratic Equations, application

Ex 4.3 Q7, word problem leading to a quadratic

Ex 4.4 Q2, two-step "nature of roots" application

Ex 4.4 Q5, forming the equation from a story sum

THEN: Trigonometry, identity choice

Ex 8.4 Q5 (i-iii), prove using a chosen identity

Ex 9.1 Q3, heights and distances, two-angle setup

Ex 8.3 Q7, complementary-angle simplification

Practice rule

For every wrong answer, mark the error: reading the condition, choosing the method, setting up the steps, calculation, or the final answer.

See where the marks went, the pattern behind them, the Board importance, and the exact practice to do next.

Evidence note: this report covers Unit Test 2 only; the trend compares it with Unit Test 1. It does not predict your final Board score.

What's this about?

A number looks wrong

Message

Tell us what you're seeing, the page, the class or student, and what looks off.

Send message

Sent as Mrs. Kavitha Rajan · demo only, nothing leaves this session.

Common questions

A student's marks look wrong, what do I do?

Open Enter Marks for that assessment and correct the question-wise score; every report and KPI that depends on it updates immediately.

Why does a chapter say "Not enough evidence"?

That chapter wasn't tested enough in the mapped papers to say anything reliable about it yet, map a paper against it to change that.

Can I undo sending a report to students?

Not from here, check the test before sending. Message us below if a report needs to be recalled.
